Plustek Releases Two New All-in-One Mobile Video Recorders

MVR surveillance on-the-go, with Plustek EasyLink Utility, offers high reliability surveillance supporting up to 8 channels of live stream videos

Taipei, Taiwan (May 5, 2014) – Plustek Inc., (<http://plusteksecurity.com/>) the leading manufacturer of innovative Linux-based embedded surveillance management devices, is pleased to announce the two all-in-one mobile video recorder products, Mobile VX-C540 (4-channel MVR) and Mobile 580VX3 (8-channel MVR), to its security product line. Remote video surveillance for on-the-go vehicle is becoming pivotal for fleet managements, the reliable and fully integrated MVRs makes it easier for organizations to use, manage and deploy video surveillances. The Plustek EasyLink Utility eliminates the barrier of complicated remote access, which in turn, eases managements to keep track what is essential and respond to imperative alerts.

“The fully-featured mobile video recorder with anti-vibration V-technology are designed to withstand shock, vibrations and temperature fluctuations, making them ideal for use on trucks, buses, trains, etc.” said Karen Ku, General Sales Director of Plustek. “We’ve took into account of the various transit environments on-the-road, enhanced our recorders to offer an all-inclusive device for instant remote live monitoring, recording, accessing superior quality recorded footage, managing and gathering data all in one central location.”

The versatile Mobile VX-C540 and Mobile VX-C580, a series of surveillance recorders fully integrated with 3G cellular networks and high speed WiFi/HotSpot, provides management real-time monitoring access and storage backup needs even when network infrastructure is not available. Furthermore, the device also includes built-in GPS receiver automatically records driving routes, G-sensor, temperature sensor, heater, ACC control with (9~36V of DC smart power), delivers power for connected cameras, built-in anti-vibration mechanism (V-Technology) and molex or m12 connector designs to quickly and securely lock and prevent disconnection while in transit. The new Plustek mobile video recorder series includes everything you need for mobile on-the-go surveillance.

Sales/Purchase Information:

The Mobile VX-C540 and Mobile VX-C580 are now available from authorized Plustek resellers. Detailed specifications are available online at <http://plusteksecurity.com/products/mobile-recorders/>
